3311 DOUBLE BOWL PEDESTAL FOUNTAIN with MEDIUM DOUBLE HANDLED URN

3312 DOUBLE BOWL PEDESTAL FOUNTAIN with VENUS OF CANOVA

3313 DOUBLE BOWL PEDESTAL FOUNTAIN with BASHFUL GIRL AND BOY

3527 DOUBLE BOWL PEDESTAL FOUNTAIN with 16" MILANO URN

Open bag containing the pump kit **P130FP**. In the kit you will find:

1 - 40160 (160 gallon per hour pump) 1 - 1" long piece of 3/8" clear tubing
1 - 8" long piece of 1/2" clear tubing 1 - rubber stopper 1 - hose clamp

1. Place the shell base on a firm and level surface where fountain will remain. Level in (2) Two directions left to right and front to back. Shim as needed.
2. Find the pump, 1/2" clear tubing 8" long, rubber stopper and hose clamp. Attach the 1/2" clear tubing 8" long to the pump with hose clamp. Place the pump in the pump house of the shell base. Run the plug end of the power cord down the PVC pipe located in the pump house. Retrieve cord from under the shell base and place in groove in bottom of shell base. Slip the rubber stopper onto the power cord with the smaller end facing away from the pump. Insert the rubber stopper snugly into the PVC pipe. Make sure the pump is seated on the bottom of the pump house. Adjust the position of the rubber stopper on the power cord if necessary. **Adjust the flow control dial on the front of the pump to the full open position.**
3. Find the pedestal top (this is the piece with the two lion heads on it). Place the pedestal top upside down on a padded surface. Looking at the bottom you will see a copper pipe. Clean any excess concrete and or tape from this pipe. Find the piece of 3/8" clear tubing 1" long and slip it on the copper pipe in the pedestal top.
4. Fill the pump house in the shell base with water until both shells are fill.
5. Trim the 1/2" clear tubing that is connected to the pump to the proper length. Connect the 1/2" clear tubing to the copper pipe in the pedestal top and place on the shell base. Position the lion heads so the water will flow into the shells. Shim if necessary.
6. Place the statue or urn on the pedestal top. Shim if necessary.
7. Plug pump into a 110VAC GFCI protected receptacle.
